

DEPARTMENT OF MECHANICAL ENGINEERING

RV INSTITUTE OF TECHNOLOGY AND MANAGEMENT BENGALURU - 560 076

The Department of Mechanical Engineering has organized an one-day technical interactive session seminar on **“Product- Automation studio software (the leading circuit designing and simulation for Fluid power) and its technical features and applications”** to Mechanical Engineering and Electronics & Communication Engineering Faculty members on 21.06.2023 (Wednesday) from 11.00 am to 12.30 pm. Mr. Vivek Kumar Sharma, Manager-Operations, Famic Technologies from Pune and Mr. Mahendra from Janatics gave the seminar on the said topic and had an interactive session at Board Room of RVITM. The faculty of ME and ECE department are participated in this event. Also, few students from ME are participated. In the session they presented the automation studio software related to pneumatics, hydraulics and control systems. In the discussion, queries are answered related to advantages with respect to the other existing software.
